

## The ULB Technology Transfer Office (TTO) is hiring : An ICT scientific advisor for a one-year full time contract (it should normally be renewed)

### Context :

ULB-TTO's mission is the valorisation of the results stemming from the scientific research performed at ULB, including technology transfer, Intellectual Property management, support for setting up applied-research projects. As part of its activities, the TTO manages the icity.brussels programme, designed to strengthen Research, Development and Innovation in Information and Communication Technologies (ICT) within the Brussels Capital-Region in tight collaboration with SIRRIS and VUB.

The selected candidate will assist the TTO in the following tasks:

### Missions :

- Technology watch and detection of new research results
- Support to R&D teams in terms of protection and valorisation of research results and technology transfer negotiation (priority analysis, patent applications, collaboration agreement negotiations with third parties, licence negotiations, support to University's spin off projects)
- Network and liaise with the relevant industrial sectors and organisations within the Brussels Region
- Support to collaborative projects
- Specific focus to all activities related to the "icity.brussels" initiative, financed by the European Regional Development Fund (ERDF), and managed in tight collaboration with ULB and VUB and the collective center SIRRIS.

### Profile :

- Master Degree in Engineering, Computer Science, Data Science, Artificial Intelligence
- Strong interest for R&D, IP management, technology transfer, technology watch in the ICT sector
- R&D experience is a plus
- Fluent in English and French
- Able to work independently while coordinating with a distributed team
- Organized, rigorous, proactive

Training in IP management is foreseen.
